Child Safe Standards

At our Curriculum Day on Monday, the staff worked together to learn about the new CHILD SAFE STANDARDS.

As a result of the 'Betrayal of Trust' inquiry and recommendations, the Victorian Government requires all schools to be compliant with the standards. There are 7 standards to ensure that all schools (and other organisations) are safe places for children.

Coral Park Primary School is committed to child safety and to all of our children having the right to be safe and protected from child abuse.

Some key points for our school community:

- We have zero tolerance for any abuse of children.
- Everyone connected to our school can help children be safe.
- We have policies and processes in place to protect the care, safety and welfare of children.
- There are clear boundaries about how adults in our school community may interact with the children.
- The child safe standards apply to school staff (including volunteers and **contractors**), visitors and students' family members.
- **Keeping children safe is everyone's responsibility. Different people at our school have different roles and responsibilities for ensuring children's safety.**
- **Things you need to know about: what 'zero tolerance' means to us, what roles and responsibilities adults have for child safety, our new procedures to respond to and report complaints of any form of child abuse.**
- We want to ensure you know how we are keeping your children safe at **school, and how we'd like you to support us (for families).**
