Guide to developing the Annual Implementation Plan: for Improving Student Outcomes

To focus effort where it is most needed, four priorities have been identified for the entire Victorian government school system. The four priorities are:

- Excellence in teaching and learning
- Professional leadership
- Positive climate for learning
- Community engagement in learning.

Six evidence-based initiatives assist schools to identify and utilise the most effective, relevant and evidence-based strategies that when implemented with consistency and depth help drive improved student outcomes. The initiatives are associated with the four state-wide priorities, in the following way (please refer to the *Framework for Improving Student Outcomes: Guidelines for schools*):

Priority	Initiatives
Excellence in teaching and learning	Building practice excellence: Teachers, principals and schools will work together
	Curriculum planning and assessment: School will embed a culture of curriculum planning, and assess the impact of learning programs, adjusting them to suit individual student needs
Professional leadership	Building leadership teams: Schools will strengthen their succession planning, develop the capabilities of their leadership teams in using evidence
Positive climate for learning	Empowering students and building school pride: Schools will develop approaches that give students a greater say
	Setting expectations and promoting inclusion: Schools will work across their communities to implement support to health, wellbeing, inclusion and engagement of all students
Community engagement in learning	Building communities: Schools will strengthen their capacity to build relationships with the broader community by partnering

To guide the development of the 2016 Annual Implementation Plan: for Improving Student Outcomes (AIP) schools will work with support from Senior Education Improvement Leaders (SEIL) to conduct an annual evaluation of student outcomes data against the targets set in their School Strategic Plan. Schools then diagnose the issues requiring particular attention and select one or more initiative.

Principal and teacher performance and development plans include explicit links with the AIP and the School Strategic Plan. This ensures a line of sight from school improvement priorities and initiatives to each individual's plan. The *Guidelines* provide further context and detailed information to support this work.

Initiatives Rationale:	
<p>Explain why the school, in consultation with the SEIL, has selected this initiative/s. Please make reference to the evaluation of school data, the progress against SSP targets, and the diagnosis of issues requiring particular attention.</p>	
<p>Building Practice Excellence & Curriculum Planning and Assessment- The school has begun to review processes of teaching, assessing and progressing Reading. Our NAPLAN data shows that high relative writing growth has been the lowest in the 2013-2015 time period compared to other learning areas. School NAPLAN cohort growth data shows that over the past five years (between 2011-2014), we have equalled or bettered State growth however, in 2015 we fell well behind State growth. Our actual data level (462 in 2015) has remained well behind State (510) and National (N/A) levels (Writing is within 20, Spelling within 4, G&P within 20 and Numeracy within 25 of State Levels) EOI prep data continues to show students coming in well behind level Teacher judgements show that students instructional level is at expected level for 85% of students however, their comprehension level is not.</p> <p>Setting Expectations and Promoting Inclusion</p> <p>Coral Park has begun to implement KidsMatter through completing modules 1 & 2 for greater student connectedness and engagement across the school. Overall we saw growth in most areas of the Attitudes to School Survey, which is a great result for the school. 'Student Safety' (2014 mean- 4.43 & 2015 mean 4.39) and 'Student Motivation' (2014 mean- 4.58 & 2015 mean 4.57) were the two factors where results were lower. The school seeks to address this by implementing 'Bounce Back' strategies to motivate and empower our students in the area of wellbeing and build consistencies across the school in language and strategies in dealing with student safety and social and emotional issues whilst further persisting with raised expectations.</p>	
Key Improvement Strategies (KIS)	
<p>List the KIS that are linked to this initiative/s and will be scaled up. This could include existing KIS from your SSP or new ones identified through the evaluation of student outcomes against SSP targets and the diagnosis of issues requiring particular attention. KIS may be specific to one outcome area or applicable across several areas.</p>
