YouTube is free video sharing website and application that is owned by Google. The platform allows its users to upload, create and watch other users videos. With over 1 billion users it is one of the most popular platforms on the internet.

Anybody can access videos on YouTube, but in order to upload a video the user must create their own YouTube account. If a user sees inappropriate content they can 'flag' or report it if it violates YouTube's community guidelines. Many popular types of videos on YouTube are music videos, 'how to videos' and gaming videos.

YouTube Kids

With over 400 hours of content uploaded to YouTube every minute it is extremely difficult for Google to keep up with the monitoring of inappropriate content.

For users under the age of 13 we recommended using 'YouTube Kids'. YouTube kids is free to download and use. Users can have up to 8 profiles attached to the one account. Each profile can have it's own viewing preferences.

The platform has features like 'watch history', 'block channels' and filters to keep videos more 'child friendly'. Parents can also create timers for video use which can enable time restrictions on their children's screen time.

YouTube Red

YouTube Red is a monthly subscription service that removes advertisements from all videos on the platform. Users can also restrict the videos so that they're more limited with no 'suggested' videos that often occur after a video has been viewed.

More often than not the suggested videos are not suitable for younger people. This platform is especially ideal for teenagers. Videos can also be downloaded and watched at any time without an internet connection. This function is fantastic for family trips in cars and airplanes.
